FAIRBANKS SCALES ANNOUNCES PARTICIPATION IN 2011 CON EXPO-CON/AGG SHOW IN LAS VEGAS, NEVADA

Kansas City, MO – January 25, 2011 – Fairbanks Scales, Inc. the oldest scale company in the country and the world's leader in weighing equipment, announced today its participation in the Con Expo-Con/Agg Show in Las Vegas, March 22 – 26, 2011. This show is the largest international exposition in the Western Hemisphere for the aggregates, construction and ready mixed concrete industry, attracting top-level decision makers from around the world.

Located at booth # G-170, Fairbanks Scales will feature the Talon PV Steel Deck Truck Scale. Built on a proven orthotropic design, the Talon has many design improvements that stand out over the competition. With tens of thousands of Fairbanks truck scales sold to date, the Talon is sure to be a great addition to any weighing system.

The 1605 Series Remote Display will also be part of the Con Ag Show. Because these displays are made to perform in harsh, real-world environments, they are perfect for trucking applications.

Fairbanks Access Solutions, a comprehensive vehicle identification and weighing system, that can automate one or more lanes at the scale house, will also be featured at the show. The system starts with the Access Entry Station. Loaded with features, this advanced entry unit greets vehicles arriving at a site, both audibly and visually, using a crisp color screen. Its ability to integrate easily with truck scale and flow meters enables it to measure and weigh the amount of any material being dropped off or picked up.

The FB3000II Solution Series Instrument will also be part of the show. This instrument is designed and engineered to revolutionize the acquisition and handling of Truck Scale data through its innovative Windows XP Embedded operating system. Because its functions like a PC, it's easy to operate, just like a PC.

Founded in 1830, Fairbanks Scales has become the leader in the industrial weighing market by creating and manufacturing an unrivaled range of weighing equipment solutions. From bench, parcel, counting, floor, and truck scales to animal, railroad track, and a full range of specialty scales, Fairbanks Scales has a reputation of being the most agile and attentive industrial weighing partner in the business. Headquartered in Kansas City, Mo., the company also is uniquely positioned to provide services for non-weighing products based on its nationwide contingent of technicians who can provide preventive maintenance and consistent, reliable service. To request more information or to obtain the name of the Fairbanks representative or authorized distributor nearest you, please call (800) 451-4107, or visit www.fairbanks.com.

If it has to be right...It has to be Fairbanks!
